## Profile

I'm looking for a challenging career opportunity in the field of web / app development, and besides that i want to improve my skills and utilize my previous work experience, academic background and social skills in order to be efficient in the company.

My areas of expertise are CSS , JavaScript , PHP.

I've worked also with React JS and React Native in some projects, but i'm not limited to these ones because i'm a fast learner and i can adapt myself easily.

## Employment History
